

ADARSH DEGREE & P.G COLLEGE
(Affiliated to Palamuru University)
B.A II-Year III-Semester
Internal Assessment-I, AUG-2026

15M

Name of the Student: _____ H.T.NO: _____

Subject: Object Oriented Programming with C++ Time: 30Min

Marks: Answer all Questions from Section A, B and C.

Section - A (Marks: 1/2M X 10 = 5M)

Multiple Choices

1. What is C++? []
 a) C++ is an object oriented programming language
 b) C++ is a procedural programming language
 c) C++ supports both procedural and object oriented programming language
 d) C++ is a functional programming language
2. Who invented C++?? []
 a) Dennis Ritchie b) Ken Thompson c) Brian Kernighan d) Bjarne Stroustrup
3. Which of the following is used for comments in C++? []
 a) /* comment */ b) // comment */ c) // comment d) both // comment or /* comment */
4. Which of the following approach is used by C++? []
 a) Left-right b) Right-left c) Bottom-up d) Top-down
5. Which is a valid C++ data type?
 a) real b) integer c) float d) number
6. Identify the logical AND operator? []
 a) || b) && c) & d) !
7. Identify the scope resolution operator? []
 a) :: b) : c) ::: d) none
8. Reusability of the code can be achieved in CPP through? []
 a) Polymorphism b) Encapsulation c) Inheritance d) All
9. An object is an _____ of class? []
 a) Constructors b) Instance c) static d) None of the above
10. Class provides _____. []
 a) Binary b) Text c) Data encapsulation, Abstraction d) none

Section - B

Fill in the Blanks

(Marks: $\frac{1}{2}$ M X 10 = 5M)

1. _____ is a programming paradigm based on objects.
2. In OOP, data and functions are combined into a single unit called an _____.
3. A _____ is a blueprint for creating objects.
4. The process of creating an object from a class is called _____.
5. OOPL stand for _____.
6. _____ hides the internal details of an object.
7. Wrapping data and functions together is called _____.
8. Reusing existing code is one of the major _____ of OOP.
9. OOP reduces _____ duplication through inheritance.
10. Variable names are called _____.

Section - C

Single line Answer type of Questions.

(Marks: 1M X 5 = 5M)

- 1) What are different data types?
- 2) What is data abstraction?
- 3) What is inheritance?
- 4) What is polymorphism?
- 5) What is message passing in cpp?
